

Notes for DIY face mask pattern:

*when cutting out pattern pieces, make sure you mark the TOP from the BOTTOM as shown-it does make a difference when piecing together and for wearing.

1/4 " seam allowance is used to sew the entire pattern.

*cutting elastic pieces 15" long gives you room to adjust to the size you need when you mask is done.

*pattern may not be sold. You may use this pattern to make masks to sell or gift.

please refer to homemadeonourhomestead.com for detailed step by step sewing instructions.

If you aren't able to find elastic cording, you can also use 1/4" elastic. Also try hair ties, bias tape to construct a tie strap, drawstring cording or larger diameter shoes laces.

PRINTING:

Make sure when you print your pattern off, that it's printing at 100%

DISCLAIMER:

*this mask **WILL NOT** protect you from COVID-19. It is intended to be worn as a reminder to not put your hands near your face/mouth when in public places without proper handwashing first. Handwashing is key to preventing the spread of infection. Use mask at your own discretion.

1" square
